above order for the reasons noted below:-

1) that no opportunity was given to him to represent his case and no reasons were assigned when Govt passed contrary to the provisions of the L. R. code, the above order cancelling the sale which had been confirmed on appeal by the Dy. Commr

2) that he and his brother-in-law Kalasetty are not on agreeable terms,

3) that neither documentary nor any other evidence has been produced in support of the fact that the stones belonged to a temple,

4) that the village is divided into parties. that the party office to him has given evidence against him and has made conflicting statements in the matter and that injustice has been done to him by relying on such interested evidence, and

5) that the Amildar being satisfied on personal inspection that the door was a source of danger to the safety of the lives of the passers-by, confirmed the sale.

I studied the records more than once. The petrs seem to have some grievance in connection as the stone pillars are near his house and are in a dangerous condition; but the proceedings after has been passed after a consideration of all facts. So I could neither ~~set~~ reject the petition nor could be rejected herein contained.

An account of this application has been undisposed of; but as the delay will not improve matters I have submitted the file.

No subsequent petition appears to have been rejected as noted by the Manager. Had one been rejected there would have been no difficulty. The petition referred by the Manager is apparently the second petition of the petitioner hereby referred.

I am not sure that it was right to cancel this sale without the concurrence of the Rev. Department. I think that some modification of the order is called for on its merits.

Supposing that the stones belonged to a ruined temple, why should they be allowed to stand in a dangerous manner near inhabited houses? The agreement to restore the temple should have been mentioned only to spite the petitioner. The persons who came forward with such a proposal should be asked to execute a muchalka that they will repair the temple ~~in~~ within a fixed time. If the pillars &c are in a dangerous state they should be at once taken down, and placed on the ground. If the temple is not rebuilt, there may be a new proclamation & sale. If however the building was one of any architectural or other interest so as to be worth preservation, a report should be made to Govt.

I have no objection.
The sale was cancelled at the recommendation of the Deputy Commr based upon the personal inspection made by such an experienced officer as Mr Srikantiah. If the pillars are in a dangerous position the local authorities can get them pulled down.
On the whole the Petr does not appear to have a good case
